Beaner – Miles Then McCoy (Agaric remix) – Stuga Musik 03 – SLELECTED DJ FEEDBACK

Clive Henry (DC10) - Agaric remix is killer!!

Jeremy P Caulfield (Dumb Unit) – oooh!! all good but Agaric's mix is hot hot like a dog in heat ... super , super ... like it all ...!

Seth Troxler - Agaric mix is killer! and the EP as a whole is great

Konrad Black (Wagon Repair/Minus) - Nice one Beaner! Remix is bomb too

Richard Seeley (Rekids) - Seriously twisted and clever music from Beaner. I'm a massive fan of his work one of the best producers out there that isn't afraid to go off the very saturated main trend. Miles Then McCoy is just a sonic riot, I love it, afterparty or early morning soundtrackedness. The Agaric mix is sweet too.... Taradise has lovely atmospheric and dig the druggy bassline. What a package behind this 100%

Raresh (Arpair) - i dig the original!

Kris Wadsworth (Poker Flat / NRK) - Patrik Skoog rocks. I got into his stuff many years ago and i seemingly will always love it - the originals are cool
